Hi ██████

We will, of course, provide as much input as you need.

Did ████ elaborate on the wider issue?

Regards

████

Subject: BDB redesign

Hi ██████
just to let you know it looks like the BDB redesign is now top of the agenda. I've got a front door request to do but it will need some input from your team.

I'm meeting with ████████████ now to start things off.

Re: BDB redesign

I think we will need to do analysis and requirement gathering first.

█████████ has pushed the suggestion that we should go ahead with this recognising there is a much wider issue for the organisation over record management

Thanks
██████
