Please take account of these notes:

1. The year period relates to mid-year ending (e.g. 2017 is the period July 2016 - June 2020)
2. Sex relates to binary sex as presented on the administrative data sources
3. Totals for the years may not equal published Long-Term International Migration (LTIM) estimates due to coverage gaps in measuring sex
4. Sources: Home Office Borders and Immigration Data (HOBID), DWP Registration and Population Interaction Database (RAPID), Higher Education Statistics Agency (HESA), NHS Personal Demographic Service (PDS)
5. More recent years are currently not available to break down by sex.
6. Net migration is derived as a calculation of immigration minus emigration
