Local Authority Insight Feedback form

Thank you for taking part in reviewing early indicative population and household figures from the 2021 Census. Below is an opportunity to comment on the data supplied, should you wish to. Please avoid quoting specific census figures on the feedback form: this will make it easier to ensure the confidentiality of the figures being provided.

Please note we ask that one representative from your local authority returns the feedback form to us to maximise time for us to review your comments. Please do not add reports or tables to this feedback form. Should you have any additional data you wish to share with us, please contact the Quality Assurance team on Census.Quality.Assurance@ons.gov.uk.

Dataset	Comments
LA Population	• We have looked at overall population; numbers of 4-year-olds; age profile. All these are fine within around 5% of our estimates EXCEPT… • …the exception is Oxford City where the age profile for the Census 2021 is very different from MYE, particularly for those in their 20s and 30s. However, this was expected (it matches ABPE). Please see Feedback Form from Oxford City LA. • *On another note, it would be great if we can work with ONS on encouraging GP surgeries to clean up their population figures – we have lots of temporary language school visitors who get registered and mess our figures up!* ████████████████████ ████████████████
Country of Birth	• (We have seen these and have no comment).
LSOA Population	• For Oxford City (esp E01028540), see the Feedback Form from Oxford City Council. █ ██ ████████████████████████████████

	▪ [REDACTED] [REDACTED]
	▪ [REDACTED] [REDACTED]
Ward Population	• (No comment / see under LSOA population)
Households	• There is a large difference between Census HH and Council Tax in student areas (see Oxford City feedback). We are not sure why.
Communal Establishment	Care homes: • We have data on (a) CQC registered care home beds (b) the number of people we fund to be in a bed. The Census 2021 figures suggest [REDACTED] [REDACTED] ▪ [REDACTED] ▪ [REDACTED]

I/we can confirm that all the early 2021 census data sent to the local authority by ONS as part of this quality assurance process has been deleted.
