

It will be the entire division (which is clothing and footwear). It gets shortened to clothing for simplicity.

Thanks

That's cool, thanks.

Can I also check please that option 2 is just for clothing (garments; other clothing & accessories; repair and hire) and not for footwear?

Sorry, I forgot to explain. I've listed all Dutot RPI items. Yellow means the item will change (few examples where it won't change). Apologies.

Thank you very much [REDACTED]

How should I interpret that yellow highlighting (or not) in the part-weighted section?

Hi [REDACTED],

I've provided a list of all Dutot EA in the RPI that would change under option 4 (and what they would change to) in the attachment below. It's based on data file 'elementary-aggregate-formula-within-rpi.xls' we published alongside the consultation doc.

There are no EA's in the RPI that are not currently Dutot but would become Dutot under option 4.

Kind regards

Subject Dutot EAs

Hi [REDACTED]

Could you please send me a list of all the Dutot elementary aggregates in the RPI which, under option four, would become Jevons? Could you also please send me the list of EAs (if any) which are currently not Dutot, but which under option four would become Dutot?

I would be grateful if you could send this through as soon as is convenient.

Many thanks,
