

Details

RPI estimates in this spreadsheet have been classified according to COICOP (Classification Of Individual Equivalent RPI indices are not available as part of the monthly CPI and RPI Statistical Bulletin. The estimates using the Dutot and Jevons formulae have been produced in an analytical system, outside specifications of the two systems lead to there being some minor differences between the analytical 'impa RPI system. The differences should not impede the interpretation of the impact of any change.

Consumption by Purpose) for comparability purposes.

of the main CPI and RPI system. The different
estimates' and statistics produced in the main CPI and
