

# Revisions to Workforce Jobs December 2013

## Abstract

This article explains the improvements and revisions to the Workforce Jobs (WFJ) series, released by the Office for National Statistics (ONS) on 18 December 2013 in the *Labour Market Statistical Bulletin*.

Workforce Jobs is a quarterly measure of the number of jobs in the United Kingdom (UK) and is the preferred measure of the change in jobs by industry. It is a compound source that draws on a range of employer surveys, household surveys and administrative sources. WFJ is the sum of employee jobs (EJ) measured primarily by employer surveys (predominantly the Short-Term Employment Surveys (STES) and the Quarterly Public Sector Employment Survey (QPSES)), self-employment jobs (SEJ) from the Labour Force Survey (LFS), and government-supported trainees (GST) and Her Majesty's Forces (HMF) from administrative sources (see **Annex A**). A variety of outputs by industry, region, gender and full/part-time status are produced for a range of publications and users.

Developments in the methods used to produce estimates of workforce jobs over the period March 2010 to April 2013 can be found in previous articles. This article explains, in detail, the revisions that have been made to the WFJ series since April 2013 as a result of:

- benchmarking to the latest estimates from the annual Business Register and Employment Survey (BRES); these revisions will go back to 2008,
- changes to seasonal parameters following a seasonal adjustment review,
- revisions of PSE estimates at Q3 2013 which were applied to Workforce Jobs inputs
- all revisions for previous quarters, due to updates in data supplied or late data, have now been included

**Figure 1** compares the previously published and revised UK Workforce jobs (seasonally adjusted).

**Figure 1** Previously published versus revised UK seasonally adjusted Workforce jobs

## Benchmarking GB Employee Jobs to the Business Register Employment Survey

Benchmarking is an annual process to align the quarterly GB EJ series to the latest estimates from the Business Register and Employment Survey (BRES). BRES is based on a sample of approximately 80,000 reporting units<sup>1</sup>, a much larger sample than STES, and so generally is considered to produce more accurate and detailed estimates of the level of employment. BRES estimates refer to Q3 of a given year. The private sector element of GB EJ series has been benchmarked to the equivalent from BRES for the periods Q3 2011 and Q3 2012 (the latest period available).

## Changes to estimates of Public Sector Employment

Workforce Jobs makes use of ONS's official public sector employment (PSE) estimates for GB. These inputs are not benchmarked as they are the definitive measure of PSE. PSE estimates were revised at Q3 2013 and these revisions have been applied to WFJ inputs. Revisions go back to 1991, are predominantly in sections O, P and Q. Further information is available in the [Q3 2013 PSE Statistical Bulletin](#)<sup>2</sup>.

<sup>1</sup> Reporting units hold the mailing address to which survey forms are sent. The form can cover the enterprise as a whole, or parts of the enterprise identified by lists of local units.

## Late or revised data

The private sector employee jobs data comes from a sample survey. Each quarter revisions to data supplied or late data are incorporated for the previous quarter in line with the revisions policy. Revisions or late data for earlier periods have now been included.

## Seasonal Adjustment

Seasonal adjustment is the process of identifying and removing the seasonal components from a series to leave the underlying trend and irregular components. The revised WFJ series have undergone a seasonal adjustment review, by ONS's Time Series Analysis branch, causing revisions back to Q3 1981.

## Government Supported trainees (GSTs)

The Department for Business, Innovation and Skills (BIS) and the devolved administrations provide the information for these series and small revisions have been taken on.

## Northern Ireland jobs

Employee jobs estimates for Northern Ireland are provided by the Department of Finance and Personnel - Northern Ireland (DFPNI). Data have been revised back to 2009 Q4.

## Annex A – Workforce Jobs sources

Component		Source
<b>Employee Jobs</b>		
Great Britain	Private Sector	Short Term Employer Surveys (STES), benchmarked to the Business Register Employment Survey (BRES)
	Public Sector	Public Sector Employment (PSE) from Quarterly Public Sector Employment Surveys (QPSES) and administrative sources from other government departments and devolved administrations
	Agriculture	Labour Force Survey (LFS), benchmarked to BRES
	Construction	Short Term Employer Surveys (STES), benchmarked to the Business Register Employment Survey (BRES)
	Air transport	Civil Aviation Authority (CAA), benchmarked to BRES
Northern Ireland	Department of Finance and Personnel – Northern Ireland (DFPNI)	
<b>Self-Employed Jobs</b>		Labour Force Survey (LFS) - main and second jobs by industry by region
<b>Government Supported Trainees</b>		
England	Department for Business, Innovation and Skills (BIS), split by industry using LFS	
Wales	Welsh Government (WG), split by industry using LFS	
Scotland	Scottish Government (SG), split by industry using LFS	
Northern Ireland	Department of Finance and Personnel – Northern Ireland (DFPNI), split by industry using LFS	
<b>Her Majesty's Forces</b>		Defence Analytical Services and Advice (DASA)
