Please take a moment to read this screen. It contains important information about the next questions.

The next set of questions may seem personal, but it is very important that we ask them to help central and local government, other agencies, and support services to understand more about domestic violence and abuse and how best to deal with it.

Please remember that all your answers are strictly confidential, and your information will be grouped with others in a way that does not identify individual people.

You will first be asked questions about your experiences with partners followed by family members.

If you find any of the questions upsetting, you can ask the interviewer for help or skip any question by selecting 'Don't wish to answer'.
