This publication has been discontinued as a result of the ONS Consultation on Statistical Products, 2013. The last edition of the Internet Access Quarterly Update was published on 14 May 2014, for Q1 2014. ONS will conduct a public consultation on future plans for the annual publication of estimates of Internet users and this will appear on the [ONS public consultation page](#).

These National Statistics are produced to high professional standards and released according to the arrangements approved by the UK Statistics Authority.
